Skills / Tools

- JIRA / CONFLUENCE
- AZURE DEVOPS
- TESTRAIL
- GIT / SVN TORTOISE
- MYSQL WORKBENCH
- SELENIUM WEB DRIVER
- HTML/CSS
- AGILE METHODOLOGIES: SCRUM / SAFE
- FIGMA
- BROWSERSTACK
- POSTMAN
- SWAGGER
- BROWSERSTACK
- ANDROID STUDIO
- STRONG PROBLEM-SOLVING
- ATTENTION TO DETAIL

Languages

English	Advanced level proficiency
German	Advanced level proficiency
Spanish	Native

Education

- Universidad Siglo XXI
Bachelor's Degree in Computer Science (2022)
- Universidad Catolica de La Plata
Bachelor's Degree in Law (2012)

Work Experience

Housing.Cloud - July 2023 - Present

Quality Assurance Analyst

- Developed and implemented the QA strategy as the first and only QA at Housing.Cloud, shaping the QA process from the ground up.
- Specialized in mobile testing by utilizing BrowserStack, ensuring applications perform seamlessly across various devices and operating systems.
- Define test cases based on functional, non-functional and technical requirements.
- Perform the documentation of the tests, design and execution of Test Cases
- Created scripts for QA automation using Cypress, demonstrating strong proficiency in automated testing frameworks.

IBM - April 2021 - June 2023

Quality Assurance Analyst

- Designing and executing tests for applications and systems deployed using custom technologies.
- Developing in-depth skills in basic testing, technical testing and business domain/processes to perform all levels of testing.
- Conducting functional, integration, end-to-end, and mobile testing across the application.
- Conducting user acceptance testing.
- Performing tasks to understand business requirements, designing optimized test scenarios.
- Planning test activities, estimating work efforts and creating test cases.
- Identifying test environments and test data requirements.
- Identifying external and internal application dependencies and executing test cases.
- Reporting test status, performing defect creation, triage and resolution, also analyzing test output for continuous improvements using analytical and cognitive techniques and tools.
- Implementing Agile methodologies.
- Tracking detailed defects throughout the testing cycle using Jira.

Quality Assurance Analyst

- Involving in daily stand-up meetings and weekly sprint meetings to discuss workflow and project specifications.
- Actively working on testing new releases and coordinated with the development team to fix bugs found during integration testing.
- Developing and establishing quality assurance measures and testing standards for new applications, products, and/or enhancements to existing applications throughout their development/product lifecycles.
- Maintained regression test suite and other testing scenarios.
- Including performing manual testing which focuses on end-to-end testing and checks application response and output to ensure compliance with system requirements as outlined in the requirements document.
- Create and track detailed defects throughout the testing cycle using Jira.
- Identified test scenarios, estimated test effort, and created test plans.
