English: Upper intermediate

Spanish: Native

COVER LETTER

Hi, this is Marcos. I've been working in the QA area for the past years, I love it, and there's a reason why:

I love rules, documentation, and processes.

I also consider myself a people person, that's why I think I'm good at working as a team member

I can keep talking about QA for hours, but I think all resumes should be one page only. Feel free to reach out!
