ABOUT ME

As a QA Engineer with over 12 years of experience, I have honed my skills in a variety of technologies including Jira, QMETRY, XRAY, Postman, Selenium, SQL, and several certifications. Throughout my career, also I had the opportunity to work in leadership roles as a QA Lead. My proactive and productive approach has allowed me to stay current with the latest technologies and continuously improve my expertise. I thrive on new challenges and am eager to contribute my skills and knowledge to a dynamic team.

PROFESSIONAL EXPERIENCE

QA Lead

Carrefour | From November 2023 - Now

- Mobile testing: Test in Android and Iphone devices (iOS)
- Requirement Review: Analyze and understand the project requirements.
- Test Planning: Develop a detailed test plan.
- Test Case Design: Create detailed test cases to cover all functional aspects
- Test Execution: Perform manual or automated tests
- Defect Logging and Tracking: Document and report any defect
- Regression Testing: Execute regressions in all platform.
- Test Automation: Develop and maintain automated tests scripts.
- Non-functional testing: Conduct performance, load and stress testing.
