Experience:

- **QA Analyst @ New Combin [May 2023 – TODAY]**

  As a Quality Assurance engineer, I have been leading the testing area of several web projects, focusing on ensuring not only the quality of the final product, but also the excellence during the whole development process.

  I have played a key role in ensuring the quality of content management, editing and distribution on different social networks, as well as to obtain the analytics provided by each social network, my focus on accuracy and efficiency has optimized the entire process. @Digital Joy Estudio

  I was part of an innovative project to ensure digital accessibility, especially for visually impaired people. I implemented quality assurance strategies that not only improved product functionality, but also set higher standards for digital inclusion. @Columbia Lighthouse for the Blind

- **QA Automation @ Cotización Ya [2021 – May 2023]**

  Working to solve the need of people who work abroad and earn in dollars. Tasks include:Create, execute and document test cases.
  Participated in User Stories Review/Requirement Analysis and Walkthrough meetings with the team, analyzed existing and changingbusiness requirements providing suggestions and feedback during brainstorming sessions based on prior experience. Conducted a sanity check of environments and reported any blockers to the technical teams.

- **QA Engineer @ Rocket Wagon [2020 - 2021]**
  - Worked for a diferrent accounts providing support within Argentinian based teams. Developed test cases and automation forinternal tools and MVPs built for strategic accounts.

- **QA Manual @ Poder Judicial DE LA PROVINCIA DEL CHACO [2017 – 2020]**

  In charge of the software quality control area. It collected information from Users and proposed improvements. A challengingprocess to stop using paper files.
