*Institution:* Ideas Center of Studies.

### ELECTRICAL AND ELECTRONICS TECHNICIAN
*Completion Date:* 2018.
*Institution:* COLSUP Technical Institute.

## Skills

➢ Web Development with experience in technologies such as PHP, JavaScript, Node.js, Java, Express, MongoDB, SQL, HTML, CSS.
➢ Proactive and efficient search for solutions to complex challenges in projects.
➢ Effective and proactive collaboration in highly productive teams.
➢ Ability to learn quickly and effectively to stay up-to-date with the latest technological trends.

## Projects

### TURNERO PHP - MYSQL
*SKILLS:* PHP- MYSQL – HTML -CSS - JAVASCRIPT
In a freelance project, I developed a turn system using PHP and MySQL. I designed and created the database to store user and turn information. I used PHP to develop the system logic, allowing users to register turns, view information, and manage them.

### QUEMAPP - NODEJS - MONGODB
*SKILLS:* EXPRESS JS – MONGODB – JAVASCRIPT
In a freelance project, I developed a Progressive Web Application (PWA) that allows users to register and record the symptoms of a burned person so that the app can deliver possible treatments to use as first aid before going to a hospital through the GPT artificial intelligence API.
