Experiencia

Globant
QC Analyst
diciembre de 2021 - Present (2 años 11 meses)

I have worked in small and large teams from American customers, delivery on challenging time-sensitive projects applying the whole test process during Software Development Life Cycle. Also, the projects has been on sectors like e-commerce, telecommunication, insurance and education.

Responsibilities:
- Analyzed business requirements and user experience goals to develop test plans and test cases.
- Planned and executed tests to detect errors, failures or behaviors.
- Used various testing methods such as integration testing, acceptance testing, functional testing, smoke testing, regression testing.
- Developed automated tests while conducting manual testing to ensure software quality through WebdriverIO and JavaScript.

Tools/Technologies:
- Agile methodologies (Scrum, Kanban)
- Jira (dashboard) - extensions Xray, Zephyr

- Target Process (dashboard)
- SalesForce Core, e-commerce
- Postman (API Testing)
- SQL Server (database)
- Firebase (cloud storage)
- WebdriverIO (basic knowledge)
- JavaScript (basic knowledge)

ZABUD Technologies
QA Analyst
julio de 2020 - diciembre de 2021 (1 año 6 meses)
Antioquia, Colombia

I had worked in large team from Colombia customer, delivery on challenging time-sensitive projects applying the whole test process during Software Development Life Cycle. Also, the projects had been on health sector.

Responsibilities:
- Shared technical guidance and transferred knowledge with QA Analyst as QA Lead.
- Analyzed business requirements and user experience goals to develop test plans and test cases.
- Planned and executed tests to detect errors, failures or behaviors.
- Used various testing methods such as integration testing, acceptance testing, functional testing, smoke testing, regression testing.

Tools/Technologies:
- Agile methodologies (Scrum, Kanban)
- Jira (dashboard) - extension Qmetry
- SQL Server, Oracle SQL Developer (database)
- PowerBuilder (basic knowledge)
- Java (basic knowledge)

SENSAS - Soluciones Empresariales en la Nube SAS
QA Analyst
abril de 2020 - julio de 2020 (4 meses)
Antioquia, Colombia

I had worked in large team from Colombia customer, delivery on challenging time-sensitive projects applying the whole test process during Software Development Life Cycle. Also, the projects had been on e-commerce sector (POS, ERP).

Responsibilities:

- Analyzed business requirements and user experience goals to develop test plans and test cases.
- Planned and executed tests to detect errors, failures or behaviors.
- Used various testing methods such as integration testing, acceptance testing, functional testing, smoke testing, regression testing.

Tools/Technologies:

- Jira (dashboard) - extension Zephyr
- SQL Server, Oracle SQL Developer (database)
- PowerBuilder (basic knowledge)
- Java (basic knowledge)

PSL Corp - Now part of Perficient
QA Analyst
septiembre de 2018 - abril de 2020 (1 año 8 meses)
Antioquia, Colombia

I had worked in large team from Colombia customer, delivery on challenging time-sensitive projects applying the whole test process during Software Development Life Cycle. Also, the projects had been on e-commerce sector (POS, ERP).
